### What's New in the?

Batch PSD to JPG Converter is a simple and reliable tool to convert your multiple files to JPG format in just a couple of minutes. The utility makes it possible to batch convert all PSD formats files into JPG in a single operation, making it a great choice if you work with lots of Photoshop files on a regular basis. Batch PSD to JPG Convert is a small and straightforward tool that can let you easily convert all your Photoshop files into JPG format. What's more, you have the possibility to batch process all the files in the current folder or from any folder you've selected. With a single click, you can convert many files to JPG in seconds! No need to install any additional components to make it happen. Just download the program from the link below and have it all done in seconds. PSD LAB is a software which allows a user to edit layers in Photoshop documents directly without opening any other software. PSD LAB Features: PSD LAB is the only Photoshop plugin that can open and edit PSD, Photoshop EPS, and Photoshop PSD-EPS (.PSEPS) files directly without opening any other program. In addition, the application is a reliable utility to edit Photoshop files. The user interface for the plugin is simple, allowing you to view the layers of the file, edit them, and create new ones. In addition, the program provides an excellent and reliable performance, even when operating in the background. PSD LAB PSD LAB also comes with over 40 presets to easily match the colors and to give the image the desired look. Simply select the preset and apply it to the current document by pressing a hotkey. Keep in mind that the presets are stored in a folder and only appear when the user opens the application for the first time. Therefore, if you want to use a specific preset, you need to go back to the folder

---

and click the preset to apply it. When saving the document, you will have the option to choose from a large list of available file formats, such as JPEG, GIF, PNG, and more. The list allows you to open, save, or export the file directly into a desired format or automatically download all the files in a ZIP archive.

**PSD LAB Installation: How to install PSD LAB:**

1. Install the first version of Photoshop if it does not already exist (and create a new Photoshop document).
2. Download PSD LAB 1

---
