With the latest version of Logic Pro 10.7.4, you can create any songs on an easy way. Moreover, with the newest features of Logic Pro 10.7.4, you can download and edit any audio or MIDI file with ease. The Harmony Keytrack and Scale Ruler software gives you a number of tools that will assist you in the composition, arrangement, and production of any type of music in Logic Pro 10. The Layout is pretty simple because the software includes various layouts of keys, chords, and faders and a wheel that gives you control over the time signature, meter, etc. The app also comes with a feature called the Scale Ruler. This feature is used to help a musician select the right key to play a scale in the right key. As the user clicks the buttons, scales and chords will be automatically displayed. The harmony key track will also provide its user with an option to choose between a major or minor key. Whether you are a rookie or have years of experience with recording and production, this free software has ample of features that will help you reach your goals. All in all, Harmony
