What's new in Elden Ring:

□No Hype□

There are no intense moments or dramatic twists in Rise of Tarnished, and the battle system is neither easy nor difficult. The game is filled with enjoyable content such as plentiful monsters, various side quests, and an insane amount of customization.

□Ultimate Tension□

Lords can use their own power to contract an unknown demon which later split into multiple smaller demons, being allowed to form a temporary body filled with power for each division. However, if users are unable to control the demon, a process which removes the demon's power and destroys your contract body occurs, and this gives rise to the ominous presence of a demon lord... As you become the demon lord, you can use your body to possess any number of contracts.

□A Legendary Monster□ ♦ A new story featuring the legendary hentai demon, the Ryzuo.
